(54) Title: A FILTER FOR A CARTRIDGE, A CARTRIDGE, USE OF A FILTER IN A CARTRIDGE AND A SYSTEM FOR
PREPARING A LIQUID SOLUTION FOR A MEDICAL PROCEDURE(57) Abstract: The invention refers to a filter (23, 24) a car-
tridge (9) containing a particulate material (20), a use of the fil-
ter and a system for preparing a liquid solution. The cartridge
(9) includes an inner space (10) for housing the particulate ma-
terial (20), an inlet (21) arranged to permit the introduction of
a liquid into the inner space, and an outlet (22) arranged to per-
mit discharge of liquid from the inner space. The filter (23) is
arranged at the outlet (22) to permit passage of the liquid in a
filter direction (x) through the filter but to prevent passage of
the particulate material through the filter. The filter includes at
least one slit-shaped opening, which has a first extension and a
second extension being substantially perpendicular to the filter
direction (x). The second extension is significantly shorter than
the first extension.
